

## **MPSL FTP Site Access Setup Instructions**

---

The MPSL FTP site <sftp://ftp.mpsl.mlml.calstate.edu> has been moved to a new server. It can only be accessed using FireFTP on the Mozilla Firefox browser. The free FireFTP add-on can be installed using this link <https://addons.mozilla.org/en-US/firefox/addon/fireftp/>.

FTP usernames have changed but the passwords are the same as they were on the old server. If you don't know your username/password, contact the MPSL-MLML [Help Desk](#) for assistance.

Once FireFTP is installed, under Edit, enter the following information into the Account Manager:

Main tab:

Account Name: ftp.mpsl.mlml.calstate.edu

Host: ftp.mpsl.mlml.calstate.edu

ID: Enter your Login and Password

Connection tab:

Security: select 'SFTP' from the dropdown list

Port: 22
